Irritation of the mouth, pharynx, esophagus and stomach can develop following ingestion.

Inhalation:
May cause irritation to respiratory tract.

****** SECTION 4  *****  FIRST AID MEASURES ******

Eyes:
Immediately flush with copious amounts of water for at least 15 minutes. If redness, itching, or burning sensations persist consult a physician or ophthalmologist immediately.

Skin:
Wash with plenty of soap and water. Remove contaminated clothing and shoes, wash before reuse. Consult a physician immediately.

Ingestion:
If person is conscious give two glasses of water (16 oz) but do not induce vomiting. If vomiting occurs, give fluids again. Never give anything by mouth to an unconscious or convulsing person. Consult a physician immediately.

Inhalation:
Remove from source of exposure and into fresh air. If symptoms persist consult a physician immediately. If not breathing, give artificial respiration and call emergency medical services immediately.

****** SECTION 5  *****  FIRE FIGHTING MEASURES ******

Flammable Properties
Flash Point: 200C/393F
Lower Flammable Limits: N/A
Upper Flammable Limit: N/A
Auto Ignition Temperature: Not available

Extinguishing Media:
Foam, CO2, dry chemical, water fog or spray, as appropriate for surrounding fire.

Special Fire Fighting Procedures:
Do not enter any enclosed or confined fire space without full protective equipment, including self-contained breathing apparatus (pressure-demand MSHA/NIOSH approved or equivalent) to protect against the hazardous effects of combustion products and oxygen deficiency.

****** SECTION 6  *****  ACCIDENTAL RELEASE MEASURES ******

Small Spill:
Wear skin, eye & respiratory protection during clean-up.
Evacuate area of all non-essential personnel. Dike, and contain and/or absorb with inert material (sand, earth or other suitable non-combustible material) to prevent entry into storm drains, sewers and other unauthorized treatment/drainage systems and natural waterways. Scoop up and place in approved containers for proper disposal. Cover with lid. If spill occurs near air inlets or inside, turn off heating or air-conditioning equipment to prevent contaminating building.

Large Spill:
Persons not wearing protective equipment should be excluded from area of spill until clean-up has been completed. Stop spill at source, dike area of spill to prevent spreading, pump liquid to salvage tank. Remaining liquid may be taken up with sand, clay, earth, or other inert absorbent material and shoveled into containers. Do not flush into sewers. Material should be placed in a container for recovery or transfer to a disposal facility.

~~~~~~~~ SECTION 7 ~~~~ HANDLING AND STORAGE ~~~~~

Handling & Storage:
Keep from freezing. Keep container cool and dry. Use and store this product with adequate ventilation. Keep product containers tightly closed when not in use. Avoid subjecting this product to extreme temperature variations.

Other Precautions:

~~~~~~~~ SECTION 8 ~~~~ EXPOSURE CONTROLS/PERSONAL PROTECTION ~~~~~

Engineering Controls:
In outside spray, mixing and rolling applications situate workers upwind of operation & provide airflow in a downwind direction so as to carry fumes and residual spray away from workers. Provide sufficient mechanical (general and/or local exhaust) ventilation to maintain exposure below TLV(s).

Respiratory Protection:
Wear a NIOSH approved respirator appropriate for the vapor or mist concentration at the point of use. Appropriate respirators may be a full-face piece or a half mask air-purifying cartridge respirator equipped for organic vapors/mists, a self-contained breathing apparatus in the pressure demand mode, or a supplied-air respirator. Refer to OSHA standard 29 CFR 1910.134 for additional information.

Skin Protection:
Chemical resistant gloves determined to be impervious under the conditions of use.

Eye Protection:
Isolate the area immediately; prevent unauthorized entry.
