SCS SPF Primer is a clear, single component epoxy primer/sealer. It incorporates a state of the art water-based technology to produce an extremely versatile product that penetrates and seals porous substrates. It increases the bond of acrylic, polyurethane, butyl and epoxy topcoats to a variety of surfaces. It also helps to “solidify” punky or chalky surfaces.

FEATURES:

• Penetrates and seals porous surfaces such as concrete, wood, fiberglass steel, aluminum.
• Enhances adhesion of coatings to metal surfaces.
• Black also enhances the adhesion of polyurethane to various surfaces.
• Solidifies punky or chalky surfaces when used as a primer prior to topcoating.
• Easy Application - Single component, spraying will give the best uniformity. It can also be brushed or rolled.
• Quick Surface Dry - Material will be dry to touch in approximately 30 minutes, and can be recoated in one hour.
• Anti-Spalling: Protects against destructive salts, oils, solvents and gasoline. Prevents spalling and pitting cause by freeze thaw cycle.

TYPICAL PHYSICAL PROPERTIES: at 75°F

• Color          Clear or Black
• Solids by Weight 15 ± 1%
• Solids by Volume 14 ± 1
• Cure Time       8 hrs
• Weight          8.40 lb./Gal.
• Application Rate 200-300 sqft/gal concrete
• VOC            330 grams/liter

LIMITATIONS AND PRECAUTIONS:

Do not apply when ambient temperature is below 50°F. Cold temperatures and high humidity will retard drying.

Store in tightly closed containers and protect from freezing.

Surface must be clean, dry, and free of rust and loose dirt.

Disclaimer: Our data is based on information from laboratory tests which are believed to be accurate but all recommendations are made without warranty, since the conditions of use are beyond Solar Coating Systems control. We do not assume liability or responsibility of the product relative to coverage, performance, or injury resulting from its use. Liability, if any, is limited to replacement of product.

California Prop 65: Chemical Warning:
(California Health and Safety Code #25249.5 ET SEQ) Detectable amounts of some chemicals known to the state of CA to cause cancer, birth defects or other reproductive harm may be found in Solar Coating Systems petroleum based products and their vapors. Read and follow label directions and information on MSDS sheets and use care when handling or using petroleum products.
