SCS UNIVERSAL PRIMER

SCS Universal Primer is a single component off white premium quality exterior latex primer that is blister and stain resistant, permanently flexible and highly durable. It incorporates a state of the art water-based technology that exhibits excellent corrosion resistance over metal, alkali resistance over concrete and masonry, and tannin blocking ability over wood surfaces. It can be topcoated with a wide variety of finish coats. Over concrete and masonry substrates, the alkali resistance make it an ideal choice for use under SCS Wall coating systems.

FEATURES:

- Penetrates and seals porous surfaces such as concrete, wood, fiberglass steel, aluminum.
- Enhances adhesion of coatings to concrete surfaces.
- Solidifies punky or chalky surfaces when used as a primer prior to topcoating.
- Easy Application - Single component, spraying will give the best uniformity. It can also be brushed or rolled
- Quick Surface Dry - Material will cure for recoating in one to 24 hours, depending on temperature and humidity.
- Effective at locking down residual chalkiness on previously painted surfaces.

TYPICAL PHYSICAL PROPERTIES: at 75°F

- Color: Off white
- Solids by Weight: 46.0 ± 1%
- Solids by Volume: 36.2 ± 1%
- Cure Time: 1-24 hrs
- Dry to Touch: 20-30 minutes
- Weight: 10.1 lb./Gal.
- Application Rate: 200-300 sqft/gal concrete
- VOC: 87 grams/liter
- Application Rate: 250 SqFt./gal smooth concrete
  200 SqFt./gal block

LIMITATIONS AND PRECAUTIONS:

Do not apply when ambient temperature is below 50°F. Cold temperatures and high humidity will retard drying.
Store in tightly closed containers and protect from freezing.
Surface must be clean, dry, and free of rust and loose dirt.
